I understand. No worries; you can send me your revision and changes and I'll do them accordingly.

Also, the custom offer I send you for the second phase, do not worry about it. Once you are ready for the second phase, just accept the offer.

There is no rush.

Thanks

<div><div></div><div>Me</div></div>	Hello Rian, The purpose of the meeting is simply to confirm that the collaborator access has been properly received on your end and to quickly walk through the initial action plan for your Shopify site improvements. It would be great to ensure everything is set up correctly from both sides before we begin work. A short call (just 5-10 minutes) will help us align smoothly and avoid any confusion.
